

VINYL-COMPOSITE WINDOW SYSTEMS

An energy-efficient solution

Vinyl-composite window systems are increasing in demand in multi-family homes for their high-performance, low maintenance, and design flexibility. When closed, these windows provide outstanding thermal and acoustical performance, creating a comfortable indoor environment year-round and significantly reduces heating and cooling costs. Solar's vinyl-composite window line allows for fixed, inswing casement, hopper, and tilt turn windows, all with similar sightlines and finishes.

FEATURES

PANELS:

- Systems include fixed, casement, awning, hopper, tilt slide, and tilt turn windows
- 3 1/4" & 2 3/8" frame depth
- Mull window capacity
- Consistent sightlines within systems
- LEED friendly system including recycled content
- Designed and manufactured in the U.S.A.

PERFORMANCE:

- Naturally thermally efficient vinyl-composite profiles
- Multiple dual weather seals
- Test results may be available upon request

GLAZING:

- Designed to accommodate almost any monolithic, insulated, laminated, decorative, polycarbonate, or solid panel infills up to 1 3/8"

HARDWARE:

- Standard, keyed lock, and ADA-compliant hardware solutions

FINISH OPTIONS

Cream White 136

Tan 304 (temporarily unavailable, except in wide and narrow frames)

Please Note: Depending upon color selection, extra cost and lead times may apply for all finishes other than Solar Innovations® stock standards. Color illustrations are shown as accurate as standard photography and printing processes allow. Final finish selection should be made from a physical sample; please contact Solar Innovations® to receive samples. All product and finish options are subject to vendor availability. Solar Innovations® reserves the right to discontinue any option at any time without notice. Additional options, including custom color matches, are available; contact a Solar Innovations® sales designer for details.
