Who We Are

SINGLE SOURCE SUPPLIER
Single source supplier of aluminum, wood, and vinyl composite glazing systems; creating consistency throughout your project.

IN-HOUSE ENGINEERS AND R&D STAFF
Our in-house engineering staff allows Solar to guide customers through the decision making process and ensure optimal project success and value.

MADE IN THE U.S.A.
Solar Innovations® Architectural Glazing Systems is proud to manufacture our products in Pine Grove, Pennsylvania. We are committed to creating jobs and growing our local economy.

CUSTOM DESIGNS
Our on-site designers make it possible for Solar to assist our customers, their architects, and/or their general contractors with any design-build project.

CUSTOMER SERVICE FOCUSED
Solar provides customers with project specific quotes. Our friendly staff is available to balance product design and value.

THERMALLY ENHANCED PRODUCTS
During the design phase, Solar’s products are evaluated for thermal efficiency. The product performance can be further enhanced through glass selection.

ON-SITE TEST LABS
Customers are invited to visit our test labs where our team designs and tests core offerings and project specific products to meet the most stringent performance requirements.

ENVIRONMENTALLY RESPONSIBLE
Solar’s aluminum extrusions contain approximately 33 percent pre-consumer recycled content and 11 percent.

Our Company

DRIVE TO SUCCEED
At Solar Innovations® we push the envelope by continually developing innovative ways to build the products our customers are requesting. Our deep rooted core values strengthen our commitment to completing the highest quality projects. We enjoy tackling some of the most complex projects that others in the industry will not touch, simply because innovation not only creates long lasting partnerships with our customers, but it also facilitates our ability to make products better than others in the industry.

Solar has been making high quality systems since 1998. We began with an idea that we could not only create better products than the market was offering at the time, but could also introduce new designs that were not even a concept in our customers' or competitors' minds. Our team was small in the beginning, but over time as we found a talented pool of people with our same principles, we began to build a company that today conquers projects of all sizes and types including commercial, residential, resort, institutional, hospitality, and multi-family. We now reside on a 36+ acre corporate campus where craftsmen, engineers, and designers are dedicated to becoming the best Architectural Glazing company out there today.

CUSTOM DESIGNS
Ingrained in our company’s DNA is to provide “six-star” customer service. This mentality has been the catalyst for each product line offered by Solar Innovations® and continues to drive us to become the premier door and window, skylight, greenhouse, and conservatory provider in North America. Some of Solar’s greatest innovations have developed from unique customer requests that others could not fulfill.

VERTICALLY INTEGRATED
Engineering, product testing, and product design all take place within our own facility. We machine many of our own parts, paint most of our own material, and create our own custom hardware. By producing as many components within our own manufacturing facility as possible, we have greater control over cost and lead times. Superior technical support can also be offered for our products because it is provided directly from the individual that created or assembled the product.
**GREENHOUSES & ACCESSORIES**

- Conservatories
- Sunrooms
- Pool Enclosures
- Canopies & Walkways
- Wood Curtain Wall

**DOORS & WINDOWS**

- Folding Glass Walls
- Slide & Stack Glass Walls

DRIVE SAFETY FIRST
By putting safety first, we build installer- and customer-friendly products and ensure our process is safe and efficient from beginning to end.

MAKE THE IMPOSSIBLE POSSIBLE
Innovation is in our DNA. We partner with those on the cutting edge of technology who want tomorrow's products today.

DELIVER A CUSTOMER EXPERIENCE BEYOND EXPECTATION
We are committed to exceeding our customers' expectations by providing 6-star customer service.

BE BETTER TODAY THAN YESTERDAY
Continuous improvement is a never ending journey, both personally and professionally. We measure our success against the highest standards—our own.

LIVE AND WORK GREEN
We live and work sustainably to prove the difference that an environmentally-friendly company can make on our world.

BUILD STRENGTH THROUGH TEAMWORK
Teamwork is the foundation for innovation and creativity. Through partnerships with our customers, peers, and our team, anything is possible.

Why Choose Us?

GREEN, INNOATIVE PRODUCTS
Solar's innovative products are a direct result of the company's philosophy—manufacturing products with outstanding thermal performance, durable framework, and green properties. Products contain stainless steel spacers and recyclable momentive silicone, which have significant life spans for long-lasting products. Utilizing these products helps structures achieve several LEED points. Check out our products page for more information.

STRONG CORE VALUES
Solar Innovations® is a single source provider of custom glazed products. Solar’s corporate philosophy is in the Company's core values, which boasts driving safety first, making the impossible possible, delivering a customer experience beyond expectation, being better today than yesterday, living and working green, and building strength through teamwork. As a result, our team here at Solar provide solutions and work efficiently to create quality products.

LEED GOLD FACILITY
Moving on June 22, 2009, you can now find Solar's current manufacturing facility in Pine Grove, PA. The three-building operation is now on a growing 36+ acre campus and includes a state-of-the-art corporate office and manufacturing facility. The facility is LEED Gold, 98.5 percent landfill free, and 85 percent off the grid. Included in out the facilities are our company showroom, three onsite greenhouses, and an in-house test lab.
