# Brevet canadien / Canadian Patent

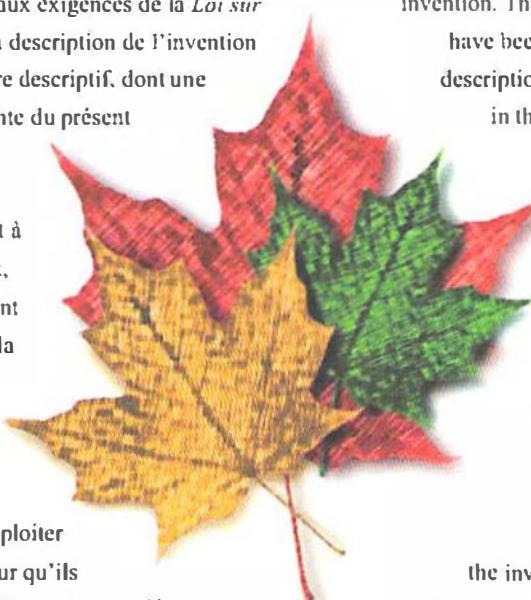

Le commissaire aux brevets a reçu une demande de délivrance de brevet visant une invention.

Ladite requête satisfait aux exigences de la *Loi sur les brevets*. Le titre et la description de l'invention figurent dans le mémoire descriptif, dont une copie fait partie intégrante du présent document.

Le présent brevet confère à son titulaire et à ses représentants légaux, pour une période expirant vingt ans à compter de la date du dépôt de la demande au Canada, le droit, la faculté et le privilège exclusif de fabriquer, construire, exploiter et vendre à d'autres, pour qu'ils l'exploitent, l'objet de l'invention, sauf jugement en l'espèce rendu par un tribunal compétent, et sous réserve du paiement des taxes périodiques.

The Commissioner of Patents has received a petition for the grant of a patent for an invention. The requirements of the *Patent Act* have been complied with. The title and a description of the invention are contained in the specification, a copy of which forms an integral part of this document.

The present patent grants to its owner and to the legal representatives of its owner, for a term which expires twenty years from the filing date of the application in Canada, the exclusive right, privilege and liberty of making, constructing and using the invention and selling it to others to be used, subject to adjudication before any court of competent jurisdiction, and subject to the payment of maintenance fees.

each with enclosed cavities and outward facing gutters. The vertical framing member gutter is deeper than the horizontal framing member gutter, creating an offset between the enclosed cavities such that a portion of the vertical wall of the vertical framing member gutter aligns with the enclosed cavity of the horizontal framing member. Electrical wire can be routed from the vertical framing member gutter into the horizontal framing member enclosed cavity through a wire-receiving aperture in the vertical frame member gutter wall portion that is aligned with the horizontal framing member enclosed cavity. This arrangement allows wiring between the outside and inside building environment while minimizing the possibility of water infiltration.
