Effortlessly open up your space to the outdoors.

Sliding glass door systems expand the view of any living space and can be used as external entryways or transitions between two interior spaces. Motorization options, pocketing possibilities, countless custom configurations, and expansive panel sizes make our sliding glass doors a flexible design element that complements any space. Where engineering allows, a pocket system can be added so the doors are completely hidden from view while open, creating an unobstructed view. Solar Innovations® also recommends the addition of a screen system for residential applications; both pet and insect screens are available to meet the individual needs of a specific project.

FEATURES

PANELS
• Motorized panels and screens possible with wireless remote, keypad, motion sensor, or infrared sensor controls
• LEED friendly system including recycled content
• Designed and manufactured in the U.S.A.

PERFORMANCE:
• Weather tight jamb interlock provides outstanding air and water performance
• Non-thermal frame available if desired

GLAZING:
• Designed to accommodate almost any glazing infill including panels, glass, acrylic, and polycarbonate

HARDWARE
• Custom manufactured operable hardware
• Multiple hardware styles and finishes
• Multiple sill designs, including high performance sill
• Stainless steel rollers with precision bearings
  • 3" rollers for minimum panel width of 30"
  • 1 13/16" rollers for minimum panel width of 20"
• Smaller panels may be available upon engineering approval

OPTIONS

FINISHES:
• Standard finishes
  • AAMA 2603: Bronze, White
  • AAMA 611 Class I Anodized: Clear, Dark Bronze
• Designer finishes
  • AAMA 2603: Hartford Green, Black, Natural Clay, Sandstone
• Custom finishes
  • Powder coat finish: AAMA 2604 - 2605
  • Fluoropolymer (50% or 70%): AAMA 2604 - 2605
  • Wood veneer, metal cladding, and foiling options
• Dual color or dual finish options

ACCESSORIES:
• Matching fixed transoms & sidelites
• Screen options: folding, sliding, retractable
• Mullions, decorative muntins, simulated divided lites (SDLs), interior & exterior grids
• No post 90° corners possible
• Pocketing options: single or double sided
• Factory installed sill drain tubes, if required
A: Handles

STANDARD HANDLE

- Ergonomic
- Handles
- Interior
- Exterior
- Options:
  - Black
  - White
  - Painted Aluminum

POCKET DOOR HARDWARE

- Edge Pull
- Pocket Doors Only
- Available in Clear Anodized Only

STANDARD RECESSED HANDLE

- Recessed Flush Lock
- Locking Option
- No Lock Option
- Interior
- Exterior
- Options:
  - Black
  - Satin Nickel

COASTAL RECESSED HANDLE

- Recessed Thumb Turn
- Interior
- Exterior
- Options:
  - Black
  - Dark Bronze Anodized
  - Clear Anodized

Rollers

- 1 13/16" Stainless Steel Wheels Roller
  - WITH STAINLESS STEEL PRECISION BEARINGS
  - G2 ONLY

- 3" Nylon Wheels Roller
  - WITH STAINLESS STEEL PRECISION BEARINGS

- 3" Stainless Steel Wheels Roller
  - WITH STAINLESS STEEL PRECISION BEARINGS

Please Note: All hardware is subject to vendor availability. Custom finishes may be available upon request at additional lead time and/or cost. Solar Innovations® reserves the right to discontinue any hardware option at any time. Please be sure to visit our website for additional product information: www.solarinnovations.com
CONFIGURATIONS

Additional configurations are available.

FINISH OPTIONS

Stock Finishes

Designer Finishes

Metal Cladding

Powder Coating Solids

Powder Coating Metallics

Faux Wood Finishes

Wood Veneering (Unfinished)

*Stock anodized finishes are available at an additional cost.

Please Note: Depending upon color selection, extra cost and lead times may apply for all finishes other than Solar Innovations® stock standards. Color illustrations are shown as accurate as standard photography and printing processes allow. Final finish selection should be made from a physical sample; please contact Solar Innovations® to receive samples. All product and finish options are subject to vendor availability. Solar Innovations® reserves the right to discontinue any option at any time without notice. Additional options, including custom color matches, are available; contact a Solar Innovations® sales designer for details.

GRID OPTIONS
G2 SLIDING GLASS DOORS

G2 System

The G2 Multi-Track Sliding Glass Door System is a thermally enhanced door ideal for any commercial or residential entryway. The frame uses a thermal strut system that separates the interior metal from the exterior metal. By including this thermal break, the temperature transfer between the outdoors and indoors is limited.

G2 Impact System

The G2 Impact Multi-Track Sliding Glass Door System is a thermally enhanced, high performance hurricane impact rated door. With all of the options of the G2 system, this option is simply for conditions that require a high performance fenestration system.

G2 STC Rated System

The G2 STC Rated Multi-Track Sliding Glass Door System is ideal for any application that has sound transmission class (STC) requirements. Though acoustic values are typically specific to the glazing selection, the construction of the frame can greatly influence the acoustical performance. The G2 STC rated system combines enhanced acoustical performance, superior thermal performance, and outstanding functionality.

PLEASE NOTE: Any variation in configuration, sill, or size from tested standards will need to be tested to confirm STC rating.

Panels

- Minimum panel size: 20" wide; smaller panels may be available upon engineering approval
- Maximum panel size up to 5' x 10'; larger panel options may be available depending on application
- Motorized panels available

Glazing

- Designed to accommodate almost any monolithic, insulated, laminated, decorative, polycarbonate, or solid panel infill from 3/16" to 1 1/16"

Performance

- Water performance up to 12psf, depending on sill choice, configuration, and water column
- Higher design pressure ratings available with engineering approval
- Test results available upon request
Sill Options

- High Performance Thermal Sill
- Extra High Performance Thermal Sill
- Low Profile Thermal Sill with Ramps
- Low Profile Thermal Sill
- Nonthermal Tile Sill

Vertical & Horizontal Rail Options

- Head Detail
- Standard Bottom Rail
- Heavy Bottom Rail
- Hook Rail
- Hurricane Hook Rail
- Thermal Hurricane Flush Rail
- Handle Rail
- Standard Mullion

Mullions (True Divided Lites)

Please note: All mullions offered by Solar Innovations® include thermal break, regardless of the system.

Jamb Details

- Standard Handle Jamb
- Standard Flush Jamb
- Hurricane Hook Rail / Standard Jambs
- High Deflection Handle Jamb
- High Deflection Flush Jamb
- Hurricane Hook Rail / High Deflection Jambs

Options dependent upon desired size and engineering requirements.
